LUXURY ELECTRIC FIRES

2023-2024

welcome to solution fires

Welcome to **solution fires**, a new generation of highly efficient, authentic and stylish electric fires. The focus of your living space, these fires have been designed and manufactured with optimal controllability of heat, light and sound as the critical elements. Controllable from your handset, via Alexa or through the app on your smart phone or watch, you can customise your fireplace to suit your individual taste. No electric fire, currently on the market, has the level of product features or attention to detail that solution fires have as standard, supported by a high level of genuine customer service. For more information about our products, please visit our website www.solutionfires.co.uk.

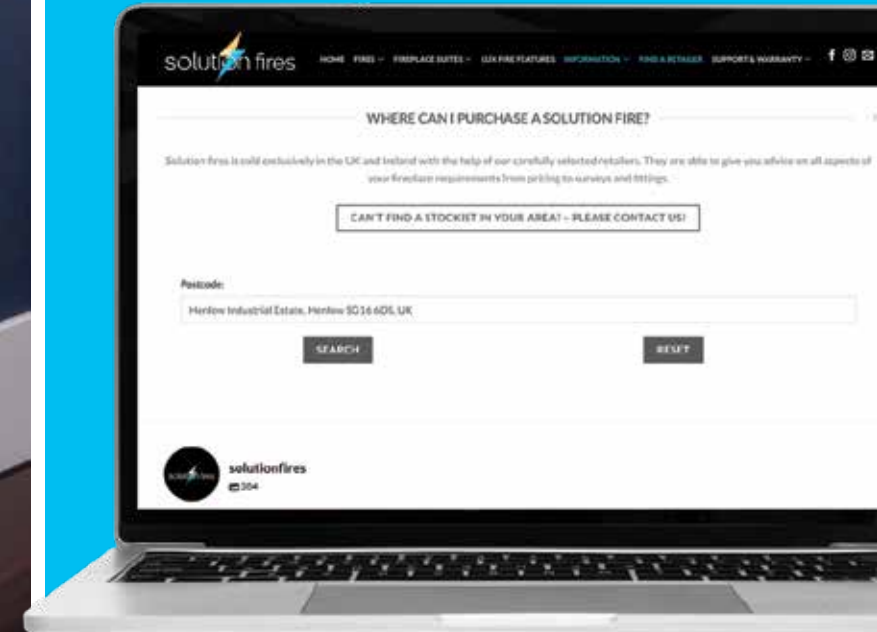

where to buy

The solution fires range is distributed via our authorised dealer network. These independent retailers are able to give you advice on all aspects of your fireplace requirements from quotations to technical and installation services.

For details of your nearest solution fires retailer, please visit our website at

www.solutionfires.co.uk

- Fuel bed can be customised by adding your own decorative pieces
- Seven preset illumination themes & one custom setting
- Nine independent flame colours with adjustable brightness
- Nine independent fuel bed colours with adjustable brightness
- Nine independent downlight colours with pulse effect
- Ability to independently turn off flame, fuel bed or downlight illumination
- Crackling fire audio with 6 volume settings

Energy Efficiency & Optional Extras

- **Running costs from only 3p per hour***
- Fully ErP compliant & low energy LED flame effect
- Optional Anti Reflective Glass available
- Two optional Scene Lighting kits with 10 colour options
- Optional 5 year warranty for added peace of mind

Installation & Controls

- 'One box solution' for front, corner or panoramic views
- Plugs into a standard 13 amp 3 pin socket
- Thermostatically controlled with ultra quiet fan heater
- Seven day, twice daily, program settings
- Supplied with hand held remote control as standard
- App control for most smart phones, tablets & watches
- Alexa voice control

remote control

All solution fires are supplied with a **hand held remote control as standard**. This handset allows you to control the whole range of audio and visual features specific to individual models.

the solution app

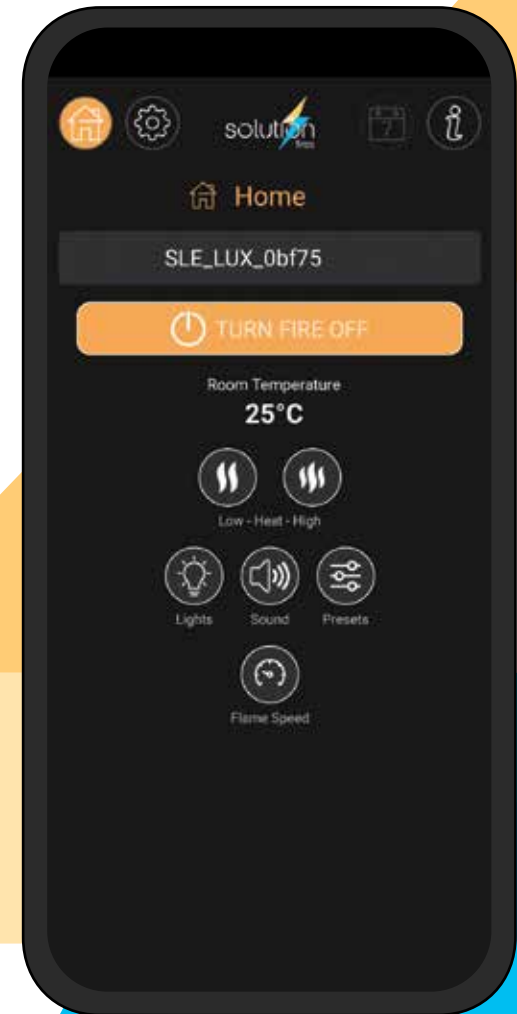

By downloading this industry leading app on Android and iOS smart phones and tablets you will be able to;

.....
Control a whole range of audio and visual features specific to individual models.
.....

Control the fire even if you're away from home
.....

Control the fire via smart watches & Alexa
.....

Set 7 day programmer
.....

setting the ambient mood

The visually stunning **LUX itronic** technology not only provides one of the most realistic flame effects on the market but also gives you, the owner, incredible versatility. You can utilise the seven preset options as illustrated below or customise the fire to suit your individual taste.

LUX scene lighting

We have introduced our popular scene lighting feature to the solution fires range. Powered directly from the fire and independently controlled via the remote control and solution app, it's an easy and efficient way to add another visual dimension to your suite, media wall or bespoke installation.

Choose from two options:

Scene Light Kit (2x 1000mm + 4x 250mm + 2x 500mm LED Strips)

Scene Spot Light Kit (2x 1000mm + 4x 250mm LED Strips + 2x LED Spot Lights)

front, corner or panoramic options

Our clever 'one box solution' makes ordering your fire so simple. The **eironic** 800, 1500 & the **LUX**75, 100, 125, 150, 175 and 200 fires can be installed as either front facing, corner (left or right) or panoramic appliances.

LUX Solstice Fire Basket

want to create a **2.5 - 4 meter fire?**

Solution Fires have cleverly designed the **LUX** range of cassette fires so that they can be sat side by side to create that extra wide wow factor fire*

For an enhanced visual appearance , we can provide a single front glass screen that removes the need for a central joint.

**Fires order as pairs will come with special factory fitted side panels. A join in the rear flame screen will always be visible along with a gap between the two flame effects.*

The following widths of fires can be achieved using the combination of fires detailed below:

2 x LUX 125 = 2.5m Fire

2 x LUX 150 = 3m Fire

2 x LUX 175 = 3.5m Fire

2 x LUX 200 = 4m Fire

LUX Suites

Versatile and Energy-Efficient

Solution fires can offer an impressive range of luxury wall mounted and floor standing suites. Designed to compliment the eTronic 800, 1500 & LUX 75, 100, 125 & 150 electric fires, these modular suites are highly versatile fitting simply to a flat wall. Create your own perfect setting by combining different design elements and finishes.

Completely Tailored Service

DIY DECORATION

Suites can be supplied in a primed finish if you wish to paint or wallpaper yourself. Chimney Breasts are only available in a primed finish, come flat packed and certain fixing holes will require filling after installation.

MADE TO MEASURE

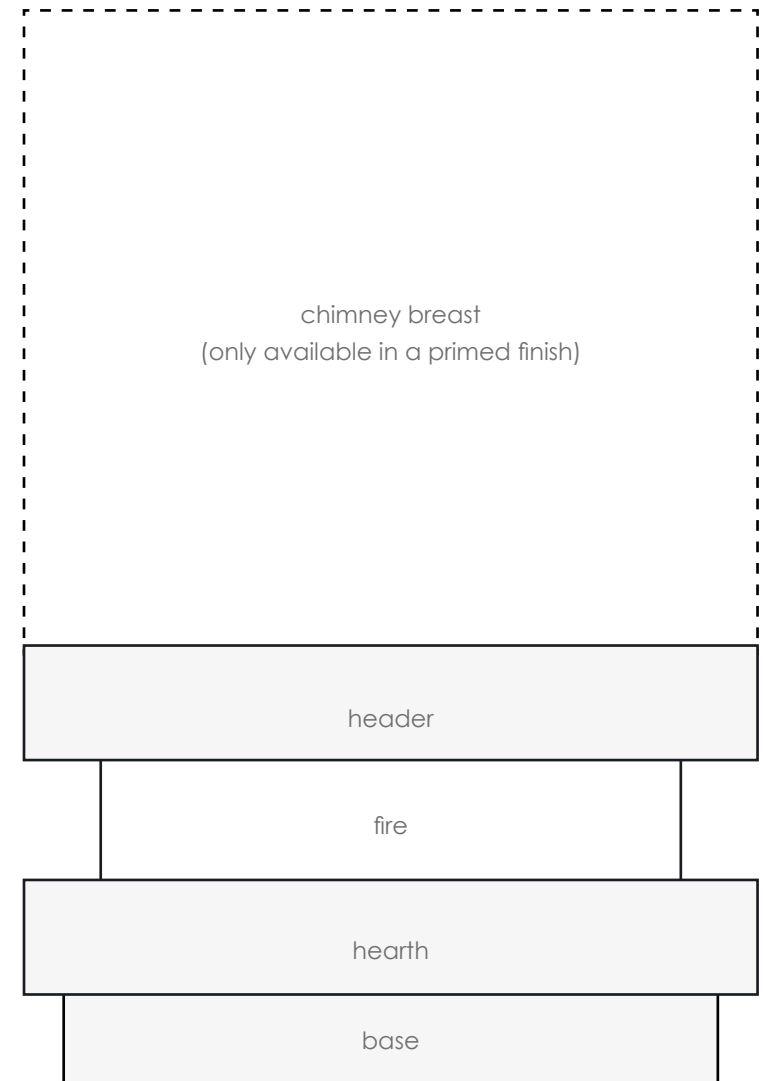

All of our suites can be tailor made to your size requirements. Maximum sizes do apply so we recommend speaking to your retailer to get more information about this service.

TV CUT OUT

Installing a TV above your brand new LUX fire? As part of our made to measure service, we can have a chimney breast made with a TV cut out. Just tell us the cut out size and where you want it positioned and we will do the rest!

New
SLE Inset Range

Our **SLE** inset fires are now available in four different options. Featuring our realistic flame technology, these versatile and energy-efficient fires are an excellent alternative for those wanting an electric fire.

Featuring a conventional canopy heater, the **SLE40i** is well suited to more traditional installations. For added effect, the **SLE40i** has been cleverly tapered to give the illusion of depth.

New for 2023! The **SLE41i**, **SLE55i** and **SLE60i** are the newest fires to our ever-expanding electric range. Featuring mirrored glass for an ultra-realistic flame effect, the **SLE55i** and **SLE60i** both have an impressive 22 inch fuel bed. The new slimline heater has been neatly disguised at the top of the flame screen, meaning that there is no need for a canopy. The **SLE41i** and **SLE55i** both fit into a standard inset opening for maximum flexibility whilst the **SLE60i** will fit slightly larger openings for those that have the space. All fires come with an intuitive remote, choice of coal or log fuel bed and the ability to adjust the flame and fuel bed brightness to create the perfect ambience.

- Available in 4 sizes with a choice of over 40 trim designs and colours
- Realistic flickering coal or log fuel beds
- Remote control as standard
- Independent brightness settings of fuel bed and flames
- Only 75mm inset depth
